.pe

registered are: com.pe net.pe org.pe mil.pe: Peruvian Armed Forces units gob.pe: Peruvian government agencies or institutions edu.pe: institutional or educational - .pe is the Internet country code top-level domain (ccTLD) for Peru. It was created on 25 November 1991.

It is managed since its creation by the Red Científica Peruana (RCP).

## Hed PE

Hed PE (standing for Higher Education Planet Earth/Planetary Evolution, typeset as (h?d)p.e., (hed) Planet Earth, (Hed)pe or (Hed)PE) is an American rock - Hed PE (standing for Higher Education Planet Earth/Planetary Evolution, typeset as (h?d)p.e., (hed) Planet Earth, (Hed)pe or (Hed)PE) is an American rock band from Huntington Beach, California. Formed in 1994, the band is known for its eclectic genre-crossing style, predominately in the fusion of gangsta rap and punk rock it has termed "G-punk", but also for its reggae-fused music.

After releasing three albums on Jive Records, Hed PE left the label to record independently. Hed PE was signed with Suburban Noize Records from 2006 until 2010. Since 2006, the band has become known for its involvement in the 9/11 Truth movement, referencing it in many of their song lyrics and concerts, as well as the concept of the album *New World Orphans*. Since 2014, the band has been signed with Pavement Music.

To date, Hed PE has released sixteen studio albums, one live album and three compilation albums, and has sold over 700,000 albums worldwide.

# Sanson Ki Mala Pe

"Sanson Ki Mala Pe" (Urdu: سانسوں کی مالا پہ; "on the rosary of breaths") is a qawwali based on a ghazal titled "sñsoñ k? maal? par simroñ nis-din p? k? - "Sanson Ki Mala Pe" (Urdu: سانسوں کی مالا پہ; "on the rosary of breaths") is a qawwali based on a ghazal titled "sñsoñ k? maal? par simroñ nis-din p? k? naam" by Pakistani poet Tufail Hoshiarpuri, first published in his collection Soch Mala. The lyrics were written by Tufail Hoshiarpuri, a 20th-century Urdu poet and songwriter, but they have often been

incorrectly attributed to the 16th-century Bhakti poet Mirabai by some unknown sources. This is historically inaccurate due to the use of Modern Hindi, a language that did not exist during Mirabai's time. Similarly, attributing the song to Amir Khusrau is also incorrect, as the lyrical style and language do not match his known works.

The composition was later popularised as a qawwali by Ustad Nusrat Fateh Ali Khan, who first performed it in India in 1979 at the wedding of actor Rishi Kapoor.

The qawwali's devotional content, dedicated to Lord Krishna, has made it a favorite among Hindu devotees, who often include it in their devotional gatherings as a qawwali. The song continues to be a popular choice for performances at qawwali concerts. Some sources erroneously claim it was written by 16th century Bhakti poet Mirabai.

It was a ghazal later re-written as a qawwali and was performed by Nusrat Fateh Ali Khan during his first visit to India in 1979 at the wedding of Rishi Kapoor.

The qawwali is frequently sung at Hindu devotional gatherings.

## Portable Executable

Portable Executable (PE) is a file format for native executable code on 32-bit and 64-bit Windows operating systems, as well as in UEFI environments. It - Portable Executable (PE) is a file format for native executable code on 32-bit and 64-bit Windows operating systems, as well as in UEFI environments. It is used for native executables (.exe), dynamic link libraries (.dll, .ocx), system drivers (.sys), object code (.obj) and many other types of files. The PE format supports storing the data required to load and start an operating system process – including references to dynamic link libraries, tables for importing and exporting application programming interface (API) functions, resource management data and thread-local storage (TLS) information.

According to the Unified Extensible Firmware Interface (UEFI) specification, the PE format is also the accepted standard for executables in EFI environments. On Windows NT systems, it currently supports a range of instruction sets, including IA-32, x86-64 (AMD64/Intel 64), IA-64, ARM and ARM64. Before the advent of Windows 2000, Windows NT (and by extension the PE format) also supported MIPS, Alpha, and PowerPC architectures. Moreover, thanks to its use in Windows CE, PE has maintained compatibility with several MIPS, ARM (including Thumb), and SuperH variants.

Functionally, the PE format is similar to other platform-specific executable formats, such as the ELF format used in Linux and most Unix-like systems, and the Mach-O format found in macOS and iOS.

## Pe (Semitic letter)

Pe is the seventeenth letter of the Semitic abjads, including Arabic ﻑ ف, Aramaic ܦ ܦ, Hebrew פ פ, Phoenician 𐤐 𐤐, and Syriac ܦ ܦ. (in abjadi - Pe is the seventeenth letter of the Semitic abjads, including Arabic ﻑ ف, Aramaic ܦ ܦ, Hebrew פ פ, Phoenician 𐤐 𐤐, and Syriac ܦ ܦ. (in abjadi order). It is related to the Ancient North Arabian 𐩣, South Arabian 𐩣, and Ge'ez ፑ.

The original sound value is a voiceless bilabial plosive /p/ and it retains this value in most Semitic languages, except for Arabic, where the sound /p/ changed into the voiceless labiodental fricative /f/, carrying with it the pronunciation of the letter. However, the sound /p/ in Arabic is used in loanwords with the letter pe as an alternative. Under the Persian influence, many Arabic dialects in the Persian Gulf, as well as in Egypt and in

some of the Maghreb under the Ottoman influence uses the letter pe to represent the sound /p/ which is missing in Modern Standard Arabic. Not to be confused with the Turned g. The Phoenician letter gave rise to the Greek Pi (π), Latin P, Glagolitic Ꙗ, and Cyrillic П.

## Petlyakov Pe-2

The Petlyakov Pe-2 (Russian: Пе-2 — nickname «Попугай» (Paw); NATO reporting name: Buck) was a Soviet twin-engine dive bomber used during World War II. The Petlyakov Pe-2 (Russian: Пе-2 — nickname «Попугай» (Paw); NATO reporting name: Buck) was a Soviet twin-engine dive bomber used during World War II. One of the outstanding tactical attack aircraft of the war, it also proved successful as a heavy fighter, as a night fighter (Pe-3 variant) and as a reconnaissance aircraft. The Pe-2 was, numerically, the most important Soviet bomber of World War II, at their peak comprising 75% of the Soviet twin-engine bomber force. The Soviets manufactured Pe-2s in greater numbers (11,430 built) during the war than any other twin-engine combat aircraft except for the German Junkers Ju 88 and the British Vickers Wellington. Several Soviet bloc air forces flew the type after the war, when it became known by the NATO reporting name Buck.

## Provider edge router

CE P/LSR PE/ELSR A provider edge router (PE router) is a router between one network service provider's area and areas administered by other network providers - A provider edge router (PE router) is a router between one network service provider's area and areas administered by other network providers. A network provider is usually an Internet service provider as well (or only that).

The term PE router covers equipment capable of a broad range of routing protocols, notably:

Border Gateway Protocol (BGP) (PE to PE or PE to CE communication)

Open Shortest Path First (OSPF) (PE to CE router communication)

Multiprotocol Label Switching (MPLS) (CE to PE (ingress eLSR) or PE to CE (egress eLSR), also PE to P (and visa versa))

PE routers do not need to be aware of what kind of traffic is coming from the provider's network, as opposed to a P router that functions as a transit within the service provider's network. However, some PE routers also do labelling.
