In her testimony of the - "How Am I Supposed to Live Without You" is a song co-written in 1982 by Doug James and Michael Bolton. The track was originally recorded by Laura Branigan in 1983, charting at number one in both the US and Canadian Adult Contemporary charts. Bolton later recorded his own version of the song that topped the US Billboard Hot 100 and became a worldwide hit.

"How Am I Supposed to Live Without You" was supposed to be recorded by Australian duo Air Supply, but when Arista President Clive Davis asked for permission to change the lyrics of the chorus, Bolton refused, and Davis let go of the song. Subsequently Laura Branigan recorded it as written, and it became the first major hit for the two songwriters. Bolton's own rendition became a worldwide hit in early 1990.

J. Robert Oppenheimer

wrote to a friend: "I am having a pretty bad time. The lab work is a terrible bore, and I am so bad at it that it is impossible to feel that I am learning - J. Robert Oppenheimer (born Julius Robert Oppenheimer OP-?n-hy-m?r; April 22, 1904 – February 18, 1967) was an American theoretical physicist who served as the director of the Manhattan Project's Los Alamos Laboratory during World War II. He is often called the "father of the atomic bomb" for his role in overseeing the development of the first nuclear weapons.

Born in New York City, Oppenheimer obtained a degree in chemistry from Harvard University in 1925 and a doctorate in physics from the University of Göttingen in Germany in 1927, studying under Max Born. After research at other institutions, he joined the physics faculty at the University of California, Berkeley, where he was made a full professor in 1936.

Oppenheimer made significant contributions to physics in the fields of quantum mechanics and nuclear physics, including the Born–Oppenheimer approximation for molecular wave functions; work on the theory of positrons, quantum electrodynamics, and quantum field theory; and the Oppenheimer–Phillips process in nuclear fusion. With his students, he also made major contributions to astrophysics, including the theory of cosmic ray showers, and the theory of neutron stars and black holes.

In 1942, Oppenheimer was recruited to work on the Manhattan Project, and in 1943 was appointed director of the project's Los Alamos Laboratory in New Mexico, tasked with developing the first nuclear weapons. His leadership and scientific expertise were instrumental in the project's success, and on July 16, 1945, he was present at the first test of the atomic bomb, Trinity. In August 1945, the weapons were used on Japan in the atomic bombings of Hiroshima and Nagasaki, to date the only uses of nuclear weapons in conflict.

In 1947, Oppenheimer was appointed director of the Institute for Advanced Study in Princeton, New Jersey, and chairman of the General Advisory Committee of the new United States Atomic Energy Commission (AEC). He lobbied for international control of nuclear power and weapons in order to avert an arms race with the Soviet Union, and later opposed the development of the hydrogen bomb, partly on ethical grounds. During the Second Red Scare, his stances, together with his past associations with the Communist Party USA, led to an AEC security hearing in 1954 and the revocation of his security clearance. He continued to lecture, write, and work in physics, and in 1963 received the Enrico Fermi Award for contributions to theoretical physics. The 1954 decision was vacated in 2022.

Performed by Reddy, the first recording of "I Am Woman" appeared on her debut album *I Don't Know How to Love Him*, released in May 1971, and was heard during the closing credits for the 1972 film *Stand Up and Be Counted*. A new recording of the song was released as a single in May 1972 and became a number-one hit later that year, eventually selling over one million copies. The song came near the apex of the counterculture era and, by celebrating female empowerment, became an enduring feminist anthem for the women's liberation movement. Following Reddy's death in September 2020, the song peaked at number 2 on the Australian digital sales chart.

Cogito, ergo sum

expressed this insight as *dubito, ergo sum, vel, quod idem est, cogito, ergo sum* ("I doubt, therefore I am — or what is the same — I think, therefore I am";). - The Latin *cogito, ergo sum*, usually translated into English as "I think, therefore I am", is the "first principle" of René Descartes' philosophy. He originally published it in French as *je pense, donc je suis* in his 1637 *Discourse on the Method*, so as to reach a wider audience than Latin would have allowed. It later appeared in Latin in his *Principles of Philosophy*, and a similar phrase also featured prominently in his *Meditations on First Philosophy*. The dictum is also sometimes referred to as the *cogito*. As Descartes explained in a margin note, "we cannot doubt of our existence while we doubt." In the posthumously published *The Search for Truth by Natural Light*, he expressed this insight as *dubito, ergo sum, vel, quod idem est, cogito, ergo sum* ("I doubt, therefore I am — or what is the same — I think, therefore I am"). Antoine Léonard Thomas, in a 1765 essay in honor of Descartes presented it as *dubito, ergo cogito, ergo sum* ("I doubt, therefore I think, therefore I am").

Descartes's statement became a fundamental element of Western philosophy, as it purported to provide a certain foundation for knowledge in the face of radical doubt. While other knowledge could be a figment of imagination, deception, or mistake, Descartes asserted that the very act of doubting one's own existence served—at minimum—as proof of the reality of one's own mind; there must be a thinking entity—in this case the self—for there to be a thought.

One critique of the dictum, first suggested by Pierre Gassendi, is that it presupposes that there is an "I" which must be doing the thinking. According to this line of criticism, the most that Descartes was entitled to say was that "thinking is occurring", not that "I am thinking".

They formed in December 1989 and are the first Australian band to have released three successive albums that have each debuted at the number-

one position on the ARIA Albums Chart: *Hi Fi Way* (February 1995), *Hourly, Daily* (July 1996) and *#4 Record* (April 1998). Nine of their tracks appeared on the related ARIA Singles Chart top 50 with "What I Don't Know 'bout You" (February 1998), their highest charting, at No. 28. *You Am I* have received ten ARIA Music Awards from thirty-one nominations. The band have supported international artists such as the Who, the Rolling Stones, Sonic Youth and Oasis.

You Am I's second studio album, *Hi Fi Way*, appeared in the eighth position in the book, *100 Best Australian Albums* (October 2010). Their third album, *Hourly, Daily* was listed at number fifty five. The same two releases were also voted into the "Hottest 100 Australian Albums of All Time" list compiled by Australian youth radio station, Triple J, in 2011. Fourteen of their songs have been placed on the related annual Hottest 100 lists with "Heavy Heart" (July 1998), the highest at No. 9.

Bolton performed in the hard rock and heavy metal music genres from the mid-1970s to the mid-1980s, both on his early solo albums and those he recorded as the frontman of the band Blackjack. His early career also saw him as a successful songwriter, co-writing hits like "How Am I Supposed to Live Without You" for Laura Branigan, which he later recorded as a solo single.

Bolton achieved peak recognition as a pop ballad singer in the late 1980s and early 1990s with collaborations with songwriters like Diane Warren and Desmond Child. During that time, he covered such songs as Otis Redding's "(Sittin' On) The Dock of the Bay" and Percy Sledge's "When a Man Loves a Woman". Despite his commercial success in the adult contemporary genre, Bolton faced criticism for being derivative. In 2000, he faced a controversial legal battle with the Isley Brothers over plagiarism, which resulted in a substantial financial settlement.

In later years, he ventured into various other media, including television and film, often appearing as himself. Bolton also participated in *Dancing with the Stars* and produced the documentary *American Dream: Detroit*. His personal life includes a long-term relationship and broken engagement with actress Nicollette Sheridan and a 15-year marriage to Maureen McGuire, with whom he has three daughters. Bolton is also known for his philanthropic efforts, particularly through The Michael Bolton Charities, although he has faced criticism over the way funds raised by the organization have been allocated. He has been recognized for his contributions to music and charity, including receiving a star on the Hollywood Walk of Fame.

Bolton has sold more than 75 million records, and recorded eight top 10 albums and two number-one singles on the Billboard charts, as well as winning six American Music Awards and two Grammy Awards. He has performed with artists including Lucia Aliberti, Patti LaBelle, José Carreras, Tony Cetinski, Ray Charles, Celine Dion, Plácido Domingo, Renée Fleming, Wynonna Judd, B.B. King, The Lonely Island, Luciano Pavarotti, Percy Sledge, and Zucchero.

It's Such a Beautiful Day (film)

That's when you say to yourself: are stick figures supposed to make me feel this way? In the hands of a master, yes. And Hertzfeldt is to stick figures what - It's Such a Beautiful Day is a 2012 American experimental animated drama film written, directed, animated, photographed, produced, and narrated by Don Hertzfeldt. It follows Bill, a stick figure who struggles with memory loss and surreal visions, among other symptoms of an unknown neurological problem.

The film employs offbeat humor with its philosophical musings. It mostly consists of stick figures with stylized real-life footage sometimes appearing in split-screen windows that are photographed through multiple exposures. The film is divided into three chapters, all of which were originally released in theaters as animated short films: Everything Will Be OK (2006), I Am So Proud of You (2008), and It's Such a Beautiful Day (2011). The three short films collectively received over 90 film festival awards upon their original releases, including the Sundance Film Festival's Grand Prize for Everything Will Be OK. In 2012, the three chapters were combined and released as a new feature film.

It's Such a Beautiful Day received widespread critical acclaim, with its experimental storytelling and surreal elements being singled out for praise. Many listed it as one of the best films of 2012, and it has since come to be widely regarded as one of the greatest animated films of all time.

Michael Jackson

the first album to produce five US Billboard Hot 100 number-one singles: "I Just Can't Stop Loving You", "Bad", "The Way You Make Me Feel", "Man in the - Michael Joseph Jackson (August 29, 1958 – June 25, 2009) was an American singer, songwriter, dancer, and philanthropist. Dubbed the "King of Pop", he is widely regarded as one of the most culturally significant figures of the 20th century. Over a four-decade career, his music achievements broke racial barriers in America and made him a dominant figure worldwide. Through his songs, stages, and fashion, he proliferated visual performance for artists in popular music, popularizing street dance moves such as the moonwalk, the robot and the anti-gravity lean. Jackson is often deemed the greatest entertainer of all time based on his acclaim and records.

The eighth child of the Jackson family, Michael made his public debut at age six as the lead singer of the Jackson 5 (later known as the Jacksons), one of Motown's most successful acts. His breakthrough as a solo artist came with the disco-inspired album *Off the Wall* (1979). Jackson achieved unprecedented global success with *Thriller* (1982), the best-selling album in history. Its short film-style music videos for "Thriller", "Beat It", and "Billie Jean" popularized MTV and redefined music videos as an art form. He followed it with *Bad* (1987), the first album to produce five US Billboard Hot 100 number-one singles: "I Just Can't Stop Loving You", "Bad", "The Way You Make Me Feel", "Man in the Mirror", and "Dirty Diana". *Dangerous* (1991) and *HIStory* (1995) explored social themes, and *Invincible* (2001) delved into personal themes.

From the late 1980s, Jackson became a figure of controversy and speculation due to his changing appearance, relationships, behavior, and lifestyle. He was accused of sexually abusing the child of a family friend in 1993. In 2005, Jackson was tried and acquitted of further child sexual abuse allegations and all other charges. While preparing for a series of comeback concerts, he died in 2009 from an overdose of propofol administered by his personal physician Conrad Murray, who was convicted in 2011 of involuntary manslaughter. Jackson's death triggered reactions around the world, creating unprecedented surges of internet traffic and a spike in sales of his music. His televised memorial service, held at the Staples Center in Los Angeles, was estimated to have been viewed by more than 2.5 billion people.

Jackson is one of the best-selling music artists of all time, with estimated sales of over 500 million records worldwide. He has 13 Billboard Hot 100 number-one singles—a joint-record for a male solo artist—and is the first artist to have a top-ten single on the chart in five different decades. Jackson was inducted into the Rock and Roll Hall of Fame twice, the National Rhythm & Blues Hall of Fame, the Vocal Group Hall of Fame, the Songwriters Hall of Fame and the Dance Hall of Fame. One of the most-awarded artists in popular music, his accolades include 13 Grammy Awards, the Grammy Legend Award, and the Grammy Lifetime Achievement Award; 26 American Music Awards, including Artist of the Century; 12 World Music Awards; six Brit Awards; the Bambi Pop Artist of the Millennium Award and three presidential honors. As a philanthropist, Jackson donated an estimated \$500 million to charity throughout his lifetime. In 2024, half of his music catalogue sold to Sony for \$600 million, the largest music acquisition for a single artist in history.
