

Where's The Unicorn

The Unicorn Tapestries

The Unicorn Tapestries or the Hunt of the Unicorn (French: La Chasse à la licorne) is a series of seven tapestries made in the Southern Netherlands around 1495–1505, and now in The Cloisters in New York City. They were possibly designed in Paris and woven in Brussels. They depict a group of noblemen and hunters in pursuit of a unicorn through an idealised French landscape. The tapestries were woven in wool, metallic threads, and silk. The vibrant colours, still evident today, were produced from dye plants: weld (yellow), madder (red), and woad (blue).

First recorded in 1680 in the Paris home of the Rochefoucauld family, the tapestries were looted during the French Revolution. Rediscovered in a barn in the 1850s, they were hung at the family's Château de Verteuil. Since then they have been the subject of intense scholarly debate about the meaning of their iconography, the identity of the artists who designed them, and the sequence in which they were meant to be hung. Although various theories have been put forward, as yet nothing is known of their early history or provenance, and their dramatic but conflicting narratives have inspired multiple readings, from chivalric to Christological. Variations in size, style, and composition suggest they come from more than one set, linked by their subject matter, provenance, and the mysterious AE monogram which appears in each. One of the panels, "The Mystic Capture of the Unicorn", survives as just two fragments.

In European literature and art, the unicorn has for the last thousand years or so been depicted as a white horse- or goat-like animal with a long straight horn with spiraling grooves, cloven hooves, and sometimes a goat's beard. In the Middle Ages and Renaissance, it was commonly described as an extremely wild woodland creature, a symbol of purity and grace, which could be captured only by a virgin. In encyclopedias,

its horn was described as having the power to render poisoned water potable and to heal sickness. In medieval and Renaissance times, the tusk of the narwhal was sometimes sold as a unicorn horn.

A bovine type of unicorn is thought by some scholars to have been depicted in seals of the Bronze Age Indus Valley civilization, the interpretation remaining controversial. An equine form of the unicorn was mentioned by the ancient Greeks in accounts of natural history by various writers, including Ctesias, Strabo, Pliny the Younger, Aelian, and Cosmas Indicopleustes. The Bible also describes an animal, the re'em, which some translations render as unicorn.

The unicorn continues to hold a place in popular culture. It is often used as a symbol of fantasy or rarity. In the 21st century, it has become an LGBTQ symbol.
