Stallone portrays the sheriff of a small New Jersey town who comes into conflict with the corrupt New York City police officers living in the community. The film received positive reviews and grossed \$63.7 million on a \$15 million budget.

Dexter (Dexter episode)

they're talking about. That's the kind of thing Michael does to tell the story—and it makes it much more interesting. Elena Maganini about Michael Cuesta - "Dexter" is the pilot episode of the American television series Dexter and the first episode overall. It first premiered on October 1, 2006 on Showtime in the United States. The episode was written by series creator James Manos Jr. and directed by Michael Cuesta. It was based on the opening of the 2004 novel *Darkly Dreaming Dexter* by Jeff Lindsay. The episode introduces the series' protagonist, Dexter Morgan (Michael C. Hall), a Miami Metro Police Department blood spatter analyst with a double life as a serial killer. While solving murders in the Homicide division, Dexter also spends his time hunting and killing murderers and criminals who have escaped the justice system.

The crew began filming the pilot in Miami, but were unable to finish due to the overlap of production with the hurricane season. In spite of a subsidy from the state of Florida, the crew moved to Los Angeles, where the remainder of filming took place. "Dexter" was watched by over one million viewers, giving Showtime its highest ratings in almost two years. Critical reception of the pilot was mostly positive, with praise centering on the strong acting from the entire cast, compelling story, and set design, though Dexter's narration was often criticized and some questioned whether portraying a serial killer in a heroic light was tasteful or entertaining.

In 2007, CBS announced that it would broadcast the show over the public airwaves, which sparked controversy with the Parents Television Council (PTC). The PTC did not want the show to be broadcast because it "compelled viewers to empathize with a serial killer"; in response, CBS replaced expletives, cut out bloody scenes and gave the show a TV-14 rating. The eventual premiere of the show on CBS was on February 17, 2008, and was watched by 8.1 million viewers.

Iggy Pop

Swiftcover insurance ad – Brand Republic News". Brand Republic. January 6, 2009. Retrieved September 8, 2010. "Iggy Pop to front £25 million car insurance ad - James Newell Osterberg Jr. (born April 21, 1947), known professionally as Iggy Pop, is an American singer, musician, songwriter, actor and radio broadcaster. He was the vocalist and lyricist of proto-punk band the Stooges, who were formed in 1967 and have disbanded and reunited many times since. Often called the "Godfather of Punk", he was named one of the 50 Great Voices by NPR due to his distinctive voice. In 2010, he was inducted into the Rock and Roll Hall of Fame as a member of the Stooges. Pop also received a Grammy Lifetime Achievement Award in 2020 for his solo work. Throughout his career, he is well known for his outrageous and unpredictable stage antics, poetic lyrics and unique voice.

Initially playing a raw, primitive style of rock and roll (progressing later towards more experimental and aggressive rock), the Stooges sold few records in their original incarnation and gained a reputation for their confrontational performances, which sometimes involved acts of self-mutilation by Pop. He had a long collaborative relationship and friendship with David Bowie over the course of his career, beginning with the Stooges' album *Raw Power* in 1973. Both musicians went to West Berlin to wean themselves off their respective drug addictions and Pop began his solo career by collaborating with Bowie on the 1977 albums *The Idiot* and *Lust for Life*, Pop usually contributing the lyrics. He was one of the first performers to do a stage-dive and popularized the activity. Pop, who traditionally (but not exclusively) performs bare-chested, also performed such stage theatrics as rolling around in broken glass.

Pop's music has encompassed a number of styles over the course of his career, including garage rock, punk rock, hard rock, heavy metal, art rock, new wave, grunge, jazz, blues and electronic. Though his popularity has fluctuated, many of Pop's songs have become well known, including "Search and Destroy" and "I Wanna Be Your Dog" by the Stooges, and his solo hits "Lust for Life", "The Passenger" and "Real Wild Child (Wild One)". In 1990, he recorded his only Top 40 U.S. hit, "Candy", a duet with the B-52s' singer Kate Pierson. Pop's song "China Girl" became more widely known when it was re-recorded by co-writer Bowie, who released it as the second single from his most commercially successful album, *Let's Dance* (1983). Bowie re-recorded and performed many of Pop's songs throughout his career.

Although Pop has had limited commercial success, he has remained a culture icon and a significant influence on a wide range of musicians in numerous genres. The Stooges' album *Raw Power* has proved an influence on artists such as Sex Pistols, the Smiths, and Nirvana. His solo album *The Idiot* has been cited as a major influence on a number of post-punk, electronic and industrial artists including Depeche Mode, Nine Inch Nails and Joy Division, and was described by Siouxsie Sioux as a "re-affirmation that our suspicions were true: the man is a genius."

Groundhog Day (film)

would intrigue an audience trying to understand how and why he is doing these things. He chose "I Got You Babe" because it used a lot of repeating lines - *Groundhog Day* is a 1993 American fantasy romantic comedy film directed by Harold Ramis from a screenplay by him and Danny Rubin. Starring Bill Murray, Andie MacDowell, and Chris Elliott, it tells the story of a cynical television weatherman covering the annual Groundhog Day event in Punxsutawney, Pennsylvania, who becomes trapped in a time loop, forcing him to relive February 2 repeatedly. The film also features Stephen Tobolowsky, Brian Doyle-Murray, Marita Geraghty, Angela Paton, Rick Ducommun, Rick Overton, and Robin Duke in supporting roles.

Rubin conceived the outline of *Groundhog Day* in the early 1990s. He wrote it as a spec script to gain meetings with producers for other work. It eventually came to the attention of Ramis, who worked with Rubin to make his idea less dark in tone and more palatable to a general audience by enhancing the comedy. After being cast, Murray clashed with Ramis over the script; Murray wanted to focus on the philosophical

elements, whereas Ramis concentrated on the comedic aspects. Principal photography took place from March to June 1992, almost entirely in Woodstock, Illinois. Filming was difficult, in part because of bitterly cold weather but also because of the ongoing conflict between Ramis and Murray.

Groundhog Day was a box-office success on its release, earning over \$105 million to become one of the highest-grossing films of 1993. It also received generally positive reviews. Reviewers were consistent in praise for the film's successful melding of highly sentimental and deeply cynical moments, and for the philosophical message beneath the comedy. It received multiple award nominations and won a BAFTA Award for Best Original Screenplay. For all its success, the film marked the end of Ramis's and Murray's long collaborative partnership, which had produced films like *Caddyshack* (1980) and *Ghostbusters* (1984). After filming ended, the pair did not speak to each other until shortly before Ramis's death in 2014. The film was a showcase for Murray; he had previously been seen primarily as a comic actor, and his performance led to more serious roles in critically acclaimed films.

In the years since its release, the film has grown in esteem; it is often considered to be among the greatest films of the 1990s and one of the greatest comedy films ever made. It has also had a significant effect on popular culture: the term *Groundhog Day*, meaning a monotonous, unpleasant, and repetitive situation, has become part of the English lexicon. Buddhist, Christian, and Jewish scholars have analyzed the film as a religious allegory. *Groundhog Day* is also credited with having ushered in mainstream acceptance of comedy films with fantasy-genre elements, and popularizing time loop narratives. In 2006, the United States Library of Congress selected the film for preservation in the National Film Registry. *Groundhog Day* was adapted into a 2016 musical, and inspired a 2019 video game sequel, *Groundhog Day: Like Father Like Son*.

List of The Daily Show episodes (2024)

RNC Plans Were Canceled: “You Really Don’t Want To Be In The Hard Perimeter,” from Deadline, 7/16/2024 “Killer Mike Recalls How He ‘Just Prayed’ After Grammys - This is a list of episodes for The Daily Show, a late-night talk and satirical news television program airing on Comedy Central, during 2024.

Following the departure of host Trevor Noah at the end of 2022, a series of guest hosts from both within and outside The Daily Show's correspondents roster filled the program's anchor chair throughout 2023, each sitting in for a one-week assignment. On January 24, 2024, it was announced that Jon Stewart would return to the show he had hosted from 1999 to 2015. This time around, in addition to serving as an executive producer, Stewart would host one episode per week, primarily on Mondays; Stewart's hosting commitment was originally planned to run through the 2024 U.S. election cycle, though it would be announced on October 28 that he would continue as a once-per-week host through December 2025. The rest of the week, members of "The Best F#@king News Team" would rotate hosting duties.

Unless otherwise indicated, The Daily Show episodes were pre-taped, though live-to-air shows would take place throughout the year, including the concluding nights of the Republican and Democratic national conventions, the nights of presidential and vice-presidential debates, and Election Night. Also unless indicated, episodes were taped at TDS's longtime home at NEP Studio 52 on 11th Avenue in New York City, though the show did originate from Chicago's Athenaeum Center for Thought & Culture the week of the Democratic Convention (August 19–22). The show had planned to do the same in Milwaukee the week that city hosted the RNC (July 15–18), but instead returned to New York for three shows (July 16–18), with Stewart noting that the Milwaukee theater where the show set up was shifted from a "soft" to "hard" security perimeter in the wake of GOP candidate Donald Trump's attempted assassination.

American Motors Corporation

“historic cars”. The AMC Pacer increased in value according to a Pacer owner who is the CEO of a major insurance provider for collector car owners. There - American Motors Corporation (AMC; commonly referred to as American Motors) was an American automobile manufacturing company formed by the merger of Nash-Kelvinator Corporation and Hudson Motor Car Company on May 1, 1954. At the time, it was the largest corporate merger in U.S. history.

American Motors' most similar competitors were those automakers that held similar annual sales levels, such as Studebaker, Packard, Kaiser Motors, and Willys-Overland. Their largest competitors were the Big Three—Ford, General Motors, and Chrysler.

American Motors' production line included small cars—the Rambler American, which began as the Nash Rambler in 1950, Hornet, Gremlin, and Pacer; intermediate and full-sized cars, including the Ambassador, Rambler Classic, Rebel, and Matador; muscle cars, including the Marlin, AMX, and Javelin; and early four-wheel drive variants of the Eagle and the Jeep Wagoneer, the first true crossovers in the U.S. market.

Regarded as "a small company deft enough to exploit special market segments left untended by the giants", American Motors was widely known for the design work of chief stylist Dick Teague, who "had to make do with a much tighter budget than his counterparts at Detroit's Big Three", but "had a knack for making the most of his employer's investment".

After periods of intermittent independent success, Renault acquired a significant interest in American Motors in 1979, and the company was ultimately acquired by Chrysler in 1987.

Barack Obama

expansion of health insurance coverage to cover the uninsured, cap premium increases, and allow people to retain their coverage when they leave or change - Barack Hussein Obama II (born August 4, 1961) is an American politician who was the 44th president of the United States from 2009 to 2017. A member of the Democratic Party, he was the first African American president. Obama previously served as a U.S. senator representing Illinois from 2005 to 2008 and as an Illinois state senator from 1997 to 2004.

Born in Honolulu, Hawaii, Obama graduated from Columbia University in 1983 with a Bachelor of Arts degree in political science and later worked as a community organizer in Chicago. In 1988, Obama enrolled in Harvard Law School, where he was the first black president of the Harvard Law Review. He became a civil rights attorney and an academic, teaching constitutional law at the University of Chicago Law School from 1992 to 2004. In 1996, Obama was elected to represent the 13th district in the Illinois Senate, a position he held until 2004, when he successfully ran for the U.S. Senate. In the 2008 presidential election, after a close primary campaign against Hillary Clinton, he was nominated by the Democratic Party for president. Obama selected Joe Biden as his running mate and defeated Republican nominee John McCain and his running mate Sarah Palin.

Obama was awarded the 2009 Nobel Peace Prize for efforts in international diplomacy, a decision which drew both criticism and praise. During his first term, his administration responded to the 2008 financial crisis with measures including the American Recovery and Reinvestment Act of 2009, a major stimulus package to guide the economy in recovering from the Great Recession; a partial extension of the Bush tax cuts; legislation to reform health care; and the Dodd–Frank Wall Street Reform and Consumer Protection Act, a major financial regulation reform bill. Obama also appointed Supreme Court justices Sonia Sotomayor and

Elena Kagan, the former being the first Hispanic American on the Supreme Court. He oversaw the end of the Iraq War and ordered Operation Neptune Spear, the raid that killed Osama bin Laden, who was responsible for the September 11 attacks. Obama downplayed Bush's counterinsurgency model, expanding air strikes and making extensive use of special forces, while encouraging greater reliance on host-government militaries. He also ordered the 2011 military intervention in Libya to implement United Nations Security Council Resolution 1973, contributing to the overthrow of Muammar Gaddafi.

Obama defeated Republican opponent Mitt Romney and his running mate Paul Ryan in the 2012 presidential election. In his second term, Obama advocated for gun control in the wake of the Sandy Hook Elementary School shooting, took steps to combat climate change, signing the Paris Agreement, a major international climate agreement, and an executive order to limit carbon emissions. Obama also presided over the implementation of the Affordable Care Act and other legislation passed in his first term. He initiated sanctions against Russia following the invasion in Ukraine and again after Russian interference in the 2016 U.S. elections, ordered military intervention in Iraq in response to gains made by ISIL following the 2011 withdrawal from Iraq, negotiated the Joint Comprehensive Plan of Action (a nuclear agreement with Iran), and normalized relations with Cuba. The number of American soldiers in Afghanistan decreased during Obama's second term, though U.S. soldiers remained in the country throughout the remainder of his presidency. Obama promoted inclusion for LGBT Americans, becoming the first sitting U.S. president to publicly support same-sex marriage.

Obama left office in 2017 with high approval ratings both within the United States and among foreign advisories. He continues to reside in Washington, D.C., and remains politically active, campaigning for candidates in various American elections, including in Biden's successful presidential bid in the 2020 presidential election. Outside of politics, Obama has published three books: *Dreams from My Father* (1995), *The Audacity of Hope* (2006), and *A Promised Land* (2020). His presidential library began construction in the South Side of Chicago in 2021. Historians and political scientists rank Obama among the upper tier in historical rankings of U.S. presidents.

Gone for Goode

(Johnson) and Steve Crosetti (Polito) into a widow killing husbands for insurance money, as well as rookie Tim Bayliss (Secor) being assigned the murder - "Gone for Goode" is the series premiere of the American police drama television series *Homicide: Life on the Street*. It originally aired on NBC in the United States on January 31, 1993, immediately following Super Bowl XXVII. The episode was written by series creator Paul Attanasio and directed by executive producer Barry Levinson. "Gone for Goode" introduced regular cast members Daniel Baldwin, Ned Beatty, Richard Belzer, Andre Braugher, Wendy Hughes, Clark Johnson, Yaphet Kotto, Melissa Leo, Jon Polito, and Kyle Secor.

The episode connects several subplots involving the detectives of a Baltimore Police Department homicide unit and establishes story arcs that continued through the first season. Among them are an investigation by Meldrick Lewis (Johnson) and Steve Crosetti (Polito) into a widow killing husbands for insurance money, as well as rookie Tim Bayliss (Secor) being assigned the murder of an 11-year-old girl for his first case. Both of those subplots were taken directly from *Homicide: A Year on the Killing Streets*, the 1991 David Simon non-fiction book from which the series was adapted.

"Gone for Goode" was seen by 18.24 million viewers, the largest viewership of the first season, although NBC was initially disappointed with the ratings. The episode received generally positive reviews upon its original broadcast. Barry Levinson won an Emmy Award for his direction in "Gone for Goode", and was nominated for a Directors Guild of America Award. Paul Attanasio received a Writers Guild of America Award nomination for the episode's script.

East Palestine, Ohio, train derailment

railroad's costs related to the derailment were \$1.1 billion, with \$101 million in insurance payments issued. Norfolk Southern is set to end relocation assistance - On February 3, 2023, at 8:55 p.m. EST (UTC-5), a Norfolk Southern freight train derailed in East Palestine, Ohio, United States. The train was carrying hazardous materials when 38 cars derailed. Several railcars burned for more than two days and emergency crews also conducted controlled burns of several railcars, which released hydrogen chloride and phosgene into the air. Residents within a 1-mile (1.6-kilometer) radius were evacuated. Agencies from Ohio, Pennsylvania, West Virginia, and Virginia assisted in the emergency response.

Following the derailment, reaction and commentary focused on industry working conditions and safety concerns, including: the lack of modern brake safety regulations, the implementation of precision scheduled railroading (PSR), reduced railway workers per train, and increased train lengths and weight. Critics said train companies had failed to invest in maintenance to prevent accidents, even though they conduct stock buybacks.

Several unions and consumer organizations expressed concern about private ownership of railways and a "profit-driven approach", which they state puts workers and communities at high risk. The United Electrical, Radio and Machine Workers of America (UE) also called for public ownership of the US railway systems.

Major US railroads promised to overhaul safety in the industry as a direct result of the East Palestine disaster. Although derailments rose at the top five freight railroads in 2023, Norfolk Southern was the only railroad among the five to report a decline in accidents in the period. A group of the railroads also promised to enroll in the Federal Railroad Administration's "close-call incident reporting system." NS was the first to join the system, with BNSF joining a few months later.

In June 2024, the National Transportation Safety Board held a meeting in East Palestine to review its findings on the incident. The board voted unanimously to accept the findings and announced it would issue a report, and Norfolk Southern announced it had endorsed the agency's recommendations.

By October 2023, Norfolk Southern removed more than 167,000 tons of contaminated soil and more than 39 million US gallons (150,000 m³) of tainted water from the derailment site.

As of February 2025, Norfolk Southern had committed more than \$115 million to East Palestine, including \$25 million for a regional safety training center and \$25 million in planned improvements to East Palestine's park. The regional safety training center was removed from the settlement in January 2025. The company has also paid \$22.21 million directly to residents.

In January 2025, East Palestine and Norfolk Southern reached a \$22 million settlement. The settlement will fund village priorities related to the derailment and acknowledges the \$13.5 million Norfolk Southern has already paid for water treatment upgrades and new police and fire equipment. It also reaffirms Norfolk Southern's \$25 million commitment to ongoing improvements at East Palestine City Park, separate from this settlement. On February 3, 2025, a lawsuit alleged that at least seven people, including a 1-week-old infant, died as a result of the toxic chemicals leak.
