It was released on 15 April 1997, and is the final album recorded with lead singer Michael Hutchence before his death in November that same year.

The band had spent April 1996 rehearsing in London and moved over to Vancouver to record with producer Bruce Fairbairn the same month. Production of the album was completed by Hutchence and songwriter and multi-instrumentalist Andrew Farriss in Spain later the same year. Two songs that did not make the final cut of the album were included on the Bang the Drum EP (2004).

The album's title is from Hutchence, with the single itself trying to recapture the magic and groove of the Kick album, particularly the single, "Need You Tonight".

All three Farriss brothers dedicated the album to their mother, Jill, who died in 1995.

Wasted vote

the way a "wasted vote" is defined. Wasted votes seldom affect each party equally irrespective of the system that produces them. More wasted votes for - In electoral systems, a wasted vote is any vote cast that is not "used" to elect a winner, and so is not represented in the outcome. However, the term is vague and ill-defined, having been used to refer to a wide variety of unrelated concepts and metrics. The analysis depends on the way a "wasted vote" is defined.

Wasted votes seldom affect each party equally irrespective of the system that produces them. More wasted votes for one party and fewer for another create a chamber of elected members that is not proportional. Distortions produced by wasted votes work against the aim of fairly reflecting the wishes of the electorate. However, a system that produces wasted votes may prevent instability caused by many parties being elected to the legislature.
